

The Future of Biometrics Solution

Elevate your security standards and embrace cutting-edge technology with Rosslare's Biometrics series.

Rosslare's Biometric series is designed for those seeking top-notch biometric solutions. This series of products offer unmatched performance and cutting-edge features.

Rosslare's BIO9000 is a range of innovative solutions packed with unique features. These products are built to handle heavy usage, with Liveness checks, highly-speed optical sensors and Scratch-Proof glass.

With the BLE-Apps support, users can conveniently identify themselves through the BLE-ID App on their smartphones. With motorized cameras and advanced facial recognition capabilities, the BIO9000 series delivers exceptional performance and convenience.

Enhanced security with our legacy biometric readers featuring the "Match On Card" technology. Your fingerprint template is securely stored on the card itself, ensuring the utmost protection for your biometric data. Seamlessly manage our biometric units using Rosslare's AxTraxPro™ Access Control Management Software.

TCS - Integrators certification training course

We are thrilled to share the success of our recent training course for integrators in Costa Rica in collaboration with our esteemed local partner, [TCS](#). This event marked our first venture into Costa Rica, and we are elated by the warm reception and widespread acceptance of Rosslare in this beautiful country.

Allow us to share a few words from Mr. Manuel Sanchez, the Regional Manager

of Rosslare in Latin America, who expressed his delight, saying, *"We are thrilled to have successfully initiated our presence in Costa Rica. Our products' positive reception and extensive understanding in this remarkable country are highly commendable. We were pleasantly surprised by the remarkable event organization led by our partner, TCS."*

Furthermore, the management team at TCS expressed their gratitude for the recent certification and training in Costa Rica. They extended their appreciation to our team for delivering an exceptional training experience, which left the participating integrators feeling grateful and satisfied with the technical expertise showcased by the exhibitors.

The fruitful collaboration has resulted in three ongoing projects: Torres de Paseo Colon Condominium, Forum Business Center, and Plaza Rofas Shopping Center.

"On behalf of the general management at TCS, we extend our heartfelt thanks for our confidence in organizing such a significant event. We are fully committed to working hand in hand with you to achieve our shared goals and realize our vision for success."
